Chattanooga, TN | michaelcmcghee@gmail.com | michaelmcghee.me

EDUCATION

Tennessee Technological University; Cookeville, TN — *Bachelor of Science (B.S.) in Web Design*

Aug 2006 - December 2010

EXPERIENCE

Web Applications Developer; Chattanooga, TN — [*Papercut Interactive*](#)

March 2012 - March 2020

- Created and modified backend PHP and JavaScript code for dozens of business client websites and applications as part of a ten-member team, which included coding Expression Engine, Craft CMS and Wordpress custom plugins and templates.
- Implemented client-specific features such as advanced search filters and e-commerce checkout solutions.
- Defined and set up content types, taxonomies, custom fields, individual templates, made custom plugins, and performed CMS configuration according to client requirements for major tourism websites, including the Tennessee Aquarium, Rock City and Ruby Falls.
- Implemented and modified e-commerce setups for clients, which included managing customer account data, handling product imports and spreadsheets, shopping cart information and customizing payment processing steps.
- Worked with a team of designers and developers to sort out UI/UX and accessibility issues regarding implementation on websites.
- Upgraded and/or updated multiple clients with older CMS or custom sites for better performance and SEO.
- Worked with the marketing team to complete competitor analysis and site audits for clients.
- Set up multiple CPANEL and Plesk containers as well as pipelines for deployment to these servers in BitBucket.

Front End Web Developer; Chattanooga, TN — [*ARS Interactive*](#)

May 2011 - February 2012

- Developed and maintained e-commerce and interactive marketing sites for four business clients, which included BrandXpand, PBS Kids, and Sears, as part of an eight-member team.
- Edited templates and provided additional coding during the setup of three Magento e-commerce shops for BrandXpand.
- Wrote custom HTML, CSS, and JavaScript front-end code while developing templates for the Magento-based PBS Kids seasonal storefront.
- Modified and maintained six e-commerce pages on Kenmore.com, which included updating images and text, implementing HTML5 video, and coding HTML, CSS, and JavaScript front-ends for seasonal pages.
